

Core Knowledge

Difference between knowledge, belief and opinion.

The complex nature of concepts such as truth, reality, happiness, identify, hope and justice.

The nature of a philosophical question.

The influence on moral decision making by factors such as experience, family, history, culture or community (including religious communities).

Skills

1. Recognise that there are many different religious and non-religious answers to questions people raise about the world around them.
 2. Talk about the difference between knowing and believing.
1. Decide if a reason or argument based on a religion or belief makes sense to them and is expressed clearly.
 2. Use more than one reason to support their view.
1. Recognise that it is difficult to define 'right', 'wrong', 'good' and 'bad'.
 2. Recognise some of the similarities and differences between these ideas.
